

I AM SLOPE MAN!

Use a red line to represent a negative slope, hence the minus sign as the eye.

Use a green line to represent a positive slope, hence the plus sign as the eye.

Use a straight line with zeros at the end to remind yourself that a straight line has a slope of 0

The nose represents a straight line with an Undefined slope. To remember the slope, remember the "U" under the straight line nose.

H O Y = Horizontal Slope  
V U X = Vertical Slope
